

# TITLE TO CANAL TO BE TRANSFERRED TO THE STATE TODAY

Official Ceremony to Take Place at Old Neely Mill Near New Hope

## GOVERNOR TO SPEAK

Ceremony Marking Opening of Canal Held Here in 1827

Governor Pinchot of Pennsylvania and Governor Larson of New Jersey head the list of hundreds of individuals and organizations from all over eastern Pennsylvania scheduled to participate in the ceremonies this afternoon when title to the historic Delaware Canal is officially transferred from the Lehigh Coal and Navigation Company to the Commonwealth of Pennsylvania.

Eliwood B. Chapman, president, and Herman Cope, secretary, of the Pennsylvania Parks Association, are in charge of arrangements for the ceremony, which will be held at 8 o'clock at the old Neely Mill, between Washington Crossing and New Hope on State Highway route No. 32. Roads leading to the site of the official ceremonies have been plainly marked.

The Delaware Canal with its 40 miles of shaded roadway and beautiful scenery will be held in perpetuity as a State Park, administered by the Department of Forests and Waters. Lewis E. Staley, Secretary of the Department in commenting upon the importance attached to the transfer stated: "The acquisition of this historic canal site marks the forging of another important link in the chain of State Parks throughout the Commonwealth of Pennsylvania."

The canal was originally part of the Delaware Division of the Pennsylvania Canal, which extended from Easton to Bristol, paralleling the Delaware River. The original construction was under State supervision, as an Act for the building of the Delaware Division of the Pennsylvania Canal passed the Legislature in 1827. Excavation began in October of that year and the event was celebrated in Bristol with civic and military demonstrations, orations, band music, cheers from the populace, and a banquet at the Delaware House. Anthracite coal from the Lehigh and Hazleton coal fields, enroute to New England, was consigned to Bristol by way of the canal for re-shipping in sailing vessels. The length of the canal when miles, and the cost was \$1,275,000.

Under the State's program the canal and its environs will provide a mecca for thousands seeking rest and recreation in the out of doors. Following the removal of commerce, development of the recreational facilities of this stretch of water will begin. Municipal park officials who have inspected the site find the opportunities for boating, swimming, and ice skating excellent.

## SENECA TRAIL LEADS TO SULPHUR SPRINGS

Located in Heart of Lower Alleghenies of West Virginia

### PASSES BALD KNOB

White Sulphur Springs, located in the heart of the lower Alleghenies of West Virginia is the objective of an attractive motor tour outlined by the Keystone Automobile Club.

"Down the picturesque Seneca Trail the tourists will find one of the most scenic regions in eastern America while enroute to this noted health resort," says Russell B. Carty, representative of the club. "The entire round trip can be covered in approximately 965 miles."

From Bristol the tour leads over the Boulevard and Hunting Park Ave., then over City Line Avenue to Overbrook where a right turn carries the travelers over U. S. Route 30 through Lancaster to Gettysburg. From here State route 116 is used to Zora where a right turn into state route 16 leads to Waynesboro. Southward over the state highway the tour continues to Hagerstown, Md.

Westward from Hagerstown the travelers follow the famous National Old Trail, U. S. Route 40, through the highly scenic regions of the Cumberland Valley for more than 100 miles to Keysers Ridge. Here a left turn in state route 37 leads southward to Oakland and the northern end of the picturesque Seneca Trail. Through Tucker, Randolph, Pocahontas, Greenbrier, Monroe and Mercer counties winds this excellent highway which closely follows the Indian trail known as Warriors Run. This ancient Indian Trail topped the mountains of western Virginia and was the highway used by the redmen between New York and Georgia.

So well worn was the trail that even today the narrow path is easily distinguishable in many places along the hillsides. Through some of the finest mountain scenery in America the highway winds through Oakland and Redhouse to Pierce, the scene of several skirmishes during the Civil War. At Parsons, the travelers find the gateway to Monongahela National Forest Park. Through Laurel Hill and Rich Mountain, two other Civil War battle grounds, the tourists reach Elkins seat of Davis-Elkins College. At Mingo Flats the site of the last Indian Village in West Virginia is passed. Nearby is the Sinks where the Gandy River disappears into a cavern under Middle Mountain. At Marlinton the first recorded settlement west of the Alleghenies, stand remnants of Confederate fortifications and the site of ancient Fort Greenbrier erected as a protection against Indians.

Some of the more interesting points passed enroute to Lewisburg at the south end of the trail include Ba d Knob, in National Forest, 4895 feet high; Minnehaha Springs, long a noted health resort; Cranberry Glades, noted for its wide variety of strange plants and shrubs; Seneca Forest, a 16000 acre state owned preserve and Droop Mountain, near Hillsboro, a noted Civil War battlefield. At Lewisburg U. S. Route 60 is met and followed eastward to White Sulphur Springs, noted as a health resort for more than 200 years. Further eastward on this route the travelers reach historic Lexington from where the homeward journey can be started northward over U. S. Route 11 which leads north through the picturesque Senandoah Valley.

## FARMS IN BUCKS NOW TOTAL 4,360, CENSUS REVEALS

Total Farm Acreage in County Is Placed At 260,072

### WOODLAND, 8883 ACRES

Highest Acreage for Crop Failure Was in Buckingham

Bucks county, according to figures compiled following the census of 1930, has a total of 4360 farms with an aggregate of 260,072 acres. Milford township, according to the figures, has the greatest number of farms, a total of 306. These farms are spread out over 13,888 acres. Bridgeton township, one of the smallest districts of the county, has the least number of farms, the report showing that but 15 properties in this township are listed as farms. Eight hundred and fifty-four acres in this district are given over to farms.

As to the number of farms in each of the 31 townships of the county it has been found that Bedminster ranks second, this district having 286. Hiltown, a close third as far as the number of farms is concerned, has a total of 280. Buckingham and Springfield townships made close bids for fourth place as far as the number of farms in the districts is concerned, but Springfield took fourth place with 248, it having nine more farms than Buckingham.

Bedminster township succeeded in gaining the distinction for having the largest acreage in the county. This township has a total acreage of 16,612. A portion of this, however, is classified in this report as idle or fallow. Seven hundred and fifty-six acres in this township are listed as idle or fallow.

Second honors as far as acreage is concerned goes to Buckingham township with 15,731 and third place goes to Falls with a total of 14,758. Springfield makes another attempt to win honors in this respect, but the report shows that Milford township shoves it out of fourth place for the total acreage, it having 13,888, while Springfield trails slightly behind with a total of 13,617 acres. Plumstead ranks sixth with 12,207 acres.

Again Bedminster ranks first when it comes to the number of acres from which crops are harvested. The report shows that crops from 10,926 acres were harvested in this township. Buckingham township produced its crops from a total of 9228 acres. Third place in this class goes to Milford township, where its crops were raised on 9081 acres. Bridgeton, the smallest district of the county, harvested its crops from 336 acres.

It is revealed further in this report that Buckingham had the highest acreage as far as crop failure is concerned. Three hundred and thirty-six acres in this township failed to produce crops after having been tilled. Only 13 acres of the tilled soil in Bridgeton township failed to produce crops.

Falls township apparently has the greatest amount of soil which cannot be devoted to farming for it is shown in this report that 5059 acres in this township are classified as "idle or fallow." In view of the fact that Bedminster has the greatest acreage in the county, it is shown in this report that a very small proportion of its acreage is classified as idle or fallow, there being but 756 acres in this classification.

According to statistics, the county has 8883 acres in wood lots and again Milford township takes the lead in this classification. It is shown that this township has 934 acres in woodland. Nockamixon township ranks second with 879 acres in woodland and Milford township third with 865 acres devoted to forests.

In a number of the districts much of the woodland is used for pasture, but in other places the trees are so dense or the tracts are so thickly covered with rocks and stones that the farmers do not consider it fit for pasture. Springfield township a portion of which bears the Haycock Mountain, has 1628 acres of woodland which are not pastured. Haycock township, the district in which this elevation is located, naturally takes the lead in this classification. In this township alone there are 1879 acres of woodland in which the cattle do not graze.

This report also devotes some space to the value of the farms and the farm buildings. The report shows that the total value of all farms and the farm buildings in the county is \$43,276,476. The value of all farm buildings in the county totals \$25,730,099. Farm dwellings in the county are valued at \$14,092,828 and the value of the farm implements and machinery in the county after the census was completed was estimated at \$5,193,155.

Bensalem township leads the county as far as the value of the farms and farm buildings are concerned. The report shows that farms and the buildings in this district are valued at \$3,367,680. Buckingham and Falls townships both make bids for

## HIGH SCHOOL ELEVEN LOSES; SCORE, 7-0

Doylestown's famous crimson avalanche rushed down on Bristol yesterday afternoon and swept on to victory at the expense of Coach Townsend's plucky Bristol High School football eleven by the score of 7 to 0 on the high school field, here.

The Bristol eleven were outweighed many pounds by the county seat footballers but fought gallantly until the end of the game, constantly threatening the Doylestown goal line.

The visitors were held scoreless until the last few minutes of the game, when a series of end runs carried the ball over Bristol's goal line.

The visitors kicked off deep into Bristol's territory where Captain Pieo caught the pigskin, carrying it back to Bristol's 45 yard line. A series of line bucks with no material gain forced the Cardinals to kick, the Doylestown fullback fumbled the ball in front of his goal. Wright of Bristol recovered it. On the next play, Bristol was penalized for off side. Bristol was held for downs, losing a golden opportunity to score.

Both teams see-sawed back and forth in the center of the field with no superiority shown by either until half time with the score 0-0.

The second half was a repetition of the first, Bristol gaining a lot of yardage by virtue of the forward pass, Pieo, Leighton and Dougherty excelling in his particular play, only to lose the ball when they got within scoring distance.

Doylestown also was stopped by Bristol on several occasions when they were deep in the home territory and were unable to put the ball across until the last minutes of the game. Bristol started a passing attack after Doylestown scored their touchdown and had the ball in the visitors' territory when the game ended.

## A. A. WILL OPPOSE PHILA. TRIANGLES

Having dropped Sullivan's field as their home grounds, the Bristol A. A. football team will play their fourth game of the season tomorrow on the Eddington field, meeting the strong Philadelphia Triangles.

Last year the A. A. played all their home games on the Eddington field and were very successful. At the beginning of this season, the A. A.'s took over Sullivan's field and during this week decided to remove to their old field so as to allow the Croydon Soccer Club to use Sullivan's field for their soccer contests.

Thus far this season the Blue and Gold has won two games and tied one. They opened up the season with a 6-0 win over the Daytona Triangles and they scored a victory over the Fern Rock A. A., 12-6. Last week they were held to a scoreless tie by the North Phillies eleven.

"Pettie" Court who missed last Sunday's fray because of an injured shoulder will come back into action and will hold down one of the end posts.

All the rest of the players are in shape and a hard battle is expected, the A's not forgetting that they barely nosed out this same Triangles team last season.

The fray will begin at 3 p. m.

## ST. ANN'S WILL OPEN FOOTBALL SEASON HERE

After a month of strenuous drilling, the St. Ann's football team will swing into action tomorrow afternoon, playing the strong Chestnut Hill Mohawks on the latter's field.

It will mark the opening game of the season for the "Saints" who had a very successful season last year.

The Dorrance street boys have been practicing almost every night and seem to be greatly strengthened. There are several new faces on the team, viz.: "Joe" Alta, former Bristol High school captain and center; "Bud" Tullo, an end; "Eddie" Tosti, backfield man; "Tink" Spadaccino, lineman; Nicols, lineman; "Lou" Conti, lineman; "Joe" DeMidio, backfield man, and "Dick" Seneca, fullback.

These along with the last year's veterans—"Shine" Gilardi, "Mike" Rich, "Sammy" Moffo, "Dom" Juno, "Ben" Prael, "Jimmy" Stallone, "Charlie" Mazzella, "Monk" Oriola, Gene Spadaccino, Phil Quide, "Charlie" Greco, "Sparrow" Sabatini, "Socks" Seneca, "Moonie" Seneca, and "Bull" Gregor—will make up the St. Ann's eleven.

The "Saints" will devote most of their time to travelling, having booked several strong teams away. Among these are the L. A. M. club, of Norristown, which is booked on October 25 and the following week the Riverside Big Green at Riverside.

The eleven is also being matched to play a game under the arc lights at the Municipal Stadium in Philadelphia. However, arrangements are not complete for this fray and will be announced later.

The Chestnut Hill Mohawks have not been beaten in three years and are expecting to give the Bristol club a severe trouncing.

A great following is anticipated to follow the locals through their schedule and will follow the two buses to Chestnut Hill tomorrow.

Nothing  
less than a six  
can give you  
built-in  
smoothness

The whole question was settled long ago—as to how many cylinders it takes in a motor car engine to give *satisfactory* smoothness. Science definitely established the fact that at least *six* are necessary. And today, the public accepts the multi-cylinder engine in the same way that it accepts 4-wheel brakes, parallel-mounted springs and every other principle of proved and *acknowledged* superiority. *Everybody knows that nothing less than a six can give you built-in smoothness.*

This general acceptance of the multi-cylinder idea has had a great deal to do with the fact that the Chevrolet, month after month, during 1931, has been the largest selling automobile. For Chevrolet is a six.

Today, this six-cylinder smoothness and dependability are within reach of every new car buyer. For Chevrolet has produced a quality car, powered it with a *firmly-mounted* six-cylinder motor—engineered it to run at less expense for gas, oil and upkeep than any other car—and priced it right down among the very lowest-priced cars in the market.

Twenty beautiful models \$475 to \$675  
at prices ranging from
